

Credibility First

DISCOVER EXCELLENCE WITH FIA SAMYAK-II

Vimek
Fluorescence ImmunoAssay
Rapid Quantitative Detection

Convenient and Powerful POCT Solution

The Vimek FIA SAMYAK-II detection system is tailored for versatile use in both laboratory and point-of-care settings. Whether in an emergency department, a physician's office, an ambulance, or a health center, our system ensures rapid and precise results exactly when you need them most.

ACCURATE

High correlation with CLIA test results

EASY TO USE

Minimal training required

FLEXIBLE

Built-in battery, useful for remote areas

LARGE TEST MENU

Over 70 parameters available
